April 2022

Letter

Dear Westbank Members,

April showers bring May flowers! Here we are with the first quarter of the year over. There is still much to do in the next 9-10 months. First we have Southeast Region Meeting, April 21-25, in Lafayette. At this time, we have eight members attending. That's awesome! I know everyone will enjoy the field trips, seminars, and Friday night festival. The business meeting, recognition luncheon, and banquet are the real highlights of every regional meeting. Kathy Martin, 2022 Southeast Region Director, will do an outstanding job and will be sure the business is handled professionally.

The 2023 RD Nominating Committee was unable to obtain a candidate for Kathy's replacement. However, there will be a nomination from the floor. No details can be shared yet – but I'm sure this will make us proud!

April is our birthday meeting. We will celebrate our 46th anniversary and recognize our members. Plan to attend and bring a guest or potential new member. Our guest speakers this month will be from Coastal Engineering Solutions. Brent Duet and David St. Marie. They will share information on the ongoing projects in Plaquemines and Jefferson parishes.

I am looking forward to representing the club as delegate at the regional meeting. This is one of the things that I L.O.V.E. about my year as club president. It's a wonderful opportunity for Lots Of Valuable Education/Experiences.

Stay safe!

Judi Adams

Roughnecks to the Rescue

March Speaker Recap—by Judi Adams

Our March speaker Randy Miller is well-known to our members. He's part of our extended family—Susan's husband—and he has presented a number of programs over the years. Randy is a very active person; he's retired from USPS and has worked as a local park ranger and a courier for oil-field service companies. But, a few years ago, Randy became very involved with the WWII Museum in New Orleans. His presentation brought the oilfield and the war effort into focus as he spoke on the Nottinghamshire oil wells and the US roughnecks that helped increase oil drilling efforts.

British oilman Phillip Southwell traveled to Washington, D.C. hoping to get help from the US to drill in the fabled Sherwood Forest. After being turned down, he approached oil baron Lloyd Noble, who agreed to send a team of experienced drillers and four rigs for one year.

In 1944, a group of 42 oilfield roughnecks from Texas, Oklahoma, and Louisiana were recruited for an overseas venture that had to be kept secret from the public, both at home and at their destination. I can only imagine the looks on the faces of the locals when this hard-working, tough-talking group showed up in cowboy boots and hats, plaid shirts, and American cigarettes. The locals were told that they were there to film a Western movie, waiting for the star, John Wayne, to arrive. The group were housed at a local monastery where the Rogues and Robes developed trusting and friendly relationships. Of course, once the guys were off the clock they were in town drinking and carousing. Despite the sometimes outrageous behavior, only two of the drilling team were sent back before the project was completed.

Due to the ongoing war, the entire operation had to be cloaked and camouflaged to avoid being seen and destroyed by German bombs. When the contract was completed, the team had completed 106 wells, with 94 producers. They worked with jack-up rigs that could be folded down and skidded easily (well, relatively easily) to the next drill site.

The efforts of this team made it possible for 3.5 million barrels of high grade oil were provided to keep British airplanes flying and fighting.

The team's achievements were not known until after the war when a London newspaper shared the story of the yanks who truly were heroes of Sherwood Forest.

In 1991, the British Government established the Dukes Wood Oil Museum to honor the men and to showcase historical artifacts. It is now housed in the very monastery where these heroes lived with the monks. You can walk a nature trail and see restored nodding donkeys and the statue of The Oil Patch Warrior. Ten years later, an identical statue, using the original mold!, was dedicated to these heroes in Ardmore, Oklahoma.

Throughout the war, then General Dwight D Eisenhower reminded the American oilfield that "OIL IS AMMUNITION."

Thanks to Randy for providing this information. I hope on my next trip to England, I get to visit Nottinghamshire and walk the Dukes Wood Oil Nature Trail.

The Desk and Derrick Club of the Westbank will be collecting items for the residents at the St. Joseph Apartments in Gretna at the March meeting.

This year, Susan is focusing on three main collections and distributions: Easter, Thanksgiving, and Christmas

Help fill “Easter Baskets” for these elderly residents. Things they always need are men’s/ladies’ socks, books, combs, brushes, shower caps, tissues, travel soaps, shampoo, conditioners, pens, stationery, and games. They really appreciate getting single-serving microwave items, like macaroni and cheese, rice-a-roni, oatmeal, and grits.

The residents of the St. Joseph Apartments will appreciate it.

April, 2022

To the wonderful members of the Southeast Region,

April Showers, bring May Flowers....and also brings us together again for the 2022 SE Region Meeting at the Doubletree by Hilton hotel in Lafayette, LA, April 21-24, 2022. Registration packages have been distributed and the registrations have begun coming in! Did you get yours done yet? Don't forget, get your registration in before April 1st and you will qualify for the "Early Bird - \$100" drawing!! Pack your bags and "Come Festival with Us"!

Everyone should have received correspondence from Evelyn Green, 2022 Southeast Region Nominating Committee Chairman, seeking my successor! Please consider stepping up and, for some, a bit outside your comfort zone, to discover the inner workings of YOUR organization! Don't let your inner fear define your outer presence!!

The 2022 B&P Highlights by ADDC President, Philana Thompson, along with the 2022 Budget has been distributed and hopefully, everyone can see just how hard your ADDC Board is working for YOU, our members! With declining membership and increased costs due to inflation, it is a very tedious and time consuming task to get a balanced budget!

Speaking of Membership, our association has steadily declined in membership over the past several years and the Public Health Emergency exacerbated an already diminishing number. The most recent Association membership number (including February and a small portion of March) is at 406...a long way from the budgeted amount of 675; however, it is hopeful that those clubs who have not submitted renewals, will do so soon!! If that means you, please make sure you get those submitted as soon as possible! Also, if you have suggestions on how to maintain and grow membership, please share them with me to pass along to others! You never know where the next great idea will come from!!!

Hope to see you all at the 2022 SE Region Meeting, April 21-24, 2022 at the Doubletree by Hilton (Group code: **STE**, group rate: **\$103/single-quad**)!!

"Virtually nothing is impossible in this world if you just put your mind to it and maintain a positive attitude" ...Lou Holtz

As was mentioned in last month’s letter and how hard the board worked to make sure we were operating within our budget, some changes were made that would allow me to visit our regions, these changes did not affect individual services to our membership. At the end of this month I will have the honor of attending the first in - person regional meeting since 2019! My tour of the regions kicks off in Lafayette, LA for the Southeast Region meeting, my next stop will be Wichita Falls, TX for the Central Region and my last in-person meeting will stop at my own region, West, in Amarillo, TX. I will be able to attend the last regional meeting of 2022 in the Northeast at their virtual meeting.

We have many deadlines coming up fast, ADDC nominations, distinguished service awards, tax filings, and then add into the mix preparing for our regional meetings. It seems another year is flying by. If you are not sure what those deadlines may be please reach out to your club president, regional director, committee chairs and even myself. The committee chairs, board and myself are working hard to clean up the website so that more information can easily be found there as well, if you don’t see something you need, once again please let us know.

As I look towards our future and being notified of another ADDC club’s disbandment this year, I would like to ask that members begin to think about what the future of our organization looks like now, tomorrow and years to come. We are not unique in our decline in membership, I have mentioned many times that other organizations I am in are seeing declines as well. Do we continue on operating as if we have 800 to 1000+ members, or do we find new ways to adapt so our organization does not die? What hard questions we should ask ourselves as clubs start to disband is:

1. Regionals and conventions; as we begin to shrink the burden of hosting a regional or convention gets tougher on regions and clubs, what are some ideas to help ease that burden?
2. What can ADDC do to help clubs and regions adapt new ways of engaging members and bringing in new?
3. What is holding us back from moving to the future?

Simply stating we have some hard times ahead and this organization is built on the strength and hard work of many folks since its inception. They also faced hard decisions that may have caused a “ruckus” but did what had to be done to see this organization thrive! Please don’t be afraid that an idea or way to help this organization survive is not a good one just because you are short timer, middle of the road or long timer.

I look forward to seeing everyone at the regionals I will be happy to hear any ideas you may have.

Prayers and Blessings!

Plaquemines Parish Becoming Louisiana's New Energy Hub

Sandy Sanders, Executive Director, Port of Plaquemines

Oil- and gas-related investments in Plaquemines Parish, spearheaded by the Plaquemines Port Harbor and Terminal District (PPHTD), hold promise to replace jobs and revenue lost over the past decade as shallow-water production in the region has diminished.

While energy taxes and royalties once totaled \$50 million annually, less than \$10 million is generated today. When PPHTD began its master plan of revitalization in 2013, 630 acres of port property were secured by Venture Global LNG under a long-term lease to construct one of the largest liquified natural gas (LNG) processing plants in the world.

Currently, Venture Global LNG is constructing and developing 70 million metric tons per annum (MTPA) of production capacity in Louisiana to provide clean, affordable energy to the world. The Plaquemines LNG facility will produce 20 MTPA with an \$8 billion investment.

While Plaquemines LNG is under construction, the global demand of LNG has Venture Global planning Delta LNG, a duplicate of Plaquemines LNG adjoining Plaquemines LNG on its south side on an additional 600 acres of land leased from PPHTD. The two projects will provide several thousand construction jobs and several hundred permanent jobs.

Venture Global's decision to locate in Plaquemines Parish was a result of the convergence of numerous natural-gas pipelines for its feedstock as well as the adjacent Mississippi River providing access for large vessels to transfer the LNG product to locations around the globe.

Other projects under construction are also a result of the unique geography of Plaquemines Parish. NOLA Oil Terminal LLC is constructing a \$930 million export terminal with two deep-water berths to accommodate 170,000-ton vessels. Three hundred million dollars of dock and wharf funding facilitated by PPHTD will be used in the project. The import-export terminal is estimated to create more than 1,000 construction jobs.

Work is also underway to convert the aging Phillips 66 refinery in Alliance to an oil terminal. The refinery was heavily damaged due to flooding brought on by Hurricane Ida in the summer of 2021. In May of 2022, our office will announce plans to finish the cleanup and commence construction of the new terminal.

In all new developments, the proximity of the PPHTD to the Mississippi River and nearby pipelines was often the deciding factor in companies choosing to invest in Plaquemines Parish. Recognizing the existing infrastructure will inevitably create more opportunities, such as providing a 7-mile rail extension to reach the site of a proposed container port and allowing rail access to public and private lands along the river.

The construction of a container terminal is the pinnacle of executing the port's master plan for development. However, the port's early successes are credited to its oil- and gas-related projects. We were very fortunate that Venture Global LNG came along soon after our land investment in Plaquemines Parish. Our community is suffering greatly, with public funds from oil and gas revenues plunging 80% as drilling has moved offshore.

Elected officials and business leaders see the port as providing prosperity for Plaquemines' future. While it's no longer drilling and production providing revenues, investments in new forms of energy have shown promise, and we are excited to work with the oil and gas industry as opportunities for growth lay ahead.

- 3 Cut thin slice from wide bottom of each egg so it will stand straight. With small sharp knife, cut off top of each egg about 1/3 of the way down, either straight across or with small slanted cuts to make a sawtooth edge. Carefully remove top portion and yolk; reserve tops. Place yolks in small bowl.
- 4 Add mayonnaise and relish to yolks; mash and mix thoroughly with fork. With small spoon, refill large section of egg with yolk mixture, heaping filling. Top each with reserved top portion of egg. Refrigerate 30 minutes or until chilled.
